

Oakland County is pleased to announce an exciting change in who administers your prescription drug program.

Beginning April 1, 2008 your prescription drug program will now be administered by Navitus Health Solutions rather than Blue Cross Blue Shield of Michigan. Navitus provides a high level of service to governmental employees and retirees, and has the tools to help lower drug costs and improve health.

In late March you'll receive a detailed member booklet from Navitus which will have your new ID cards attached to it. This member booklet will outline your prescription drug benefit and answer questions. Should you have additional questions, Navitus Customer Care is ready to take your calls at 866-333-2757, 8am – 10pm Eastern time Monday-Friday and 10:30am – 6:00pm Eastern time Saturday & Sunday.
